Summary

Security-focused professional with **2 years of experience** spanning application testing, performance engineering, and **technical IT operations**. Hands-on experience in **web application penetration testing**, performance evaluation, and **security incident triage** through project work and corporate training. Proficient in tools such as **Burp Suite**, **JMeter**, and **ticketing/endpoint troubleshooting** workflows, with practical exposure from **TryHackMe labs** and internal security exercises. Skilled in **identifying vulnerabilities**, analyzing system behavior, and applying **OWASP Top 10** and secure testing methodologies to improve application resilience and security posture. Recognized for strong analytical thinking, cross-functional collaboration, and ability to support **security-focused investigations** and **operational monitoring**.

Technologies

Languages: SQL, Python, PowerShell, JavaScript, HTML/CSS, Apache Groovy

Security & Testing: Burp Suite, OWASP ZAP, Nmap, Gobuster, Nikto, SQLMap, Hashcat, John the Ripper, CyberChef, Kali Linux, Web App Testing (OWASP Top 10), Splunk, Wireshark

Monitoring & SIEM: Splunk, Elastic Stack, Log Analysis, Security Event Investigation, SIEM Concepts

IT Operations: Windows Troubleshooting, Active Directory (IAM), ServiceNow, Incident Triage, Endpoint Analysis, Email Security Investigation, EDR, DLP

Performance Testing: JMeter, Load & Stress Testing, Performance Analysis

Labs & Platforms: TryHackMe, HackTheBox

Experience

Associate Software Engineer
Tietoenvry

Bangalore, IN
April 2024 - Present

Associate Software Engineer with experience in application security testing and performance engineering. Hands-on exposure to web application penetration testing and load testing using Burp Suite and JMeter.

Projects

AccentCare — Enterprise IT Support & Access Operations

- Technologies: Active Directory, Azure AD, Microsoft Intune, O365, ServiceNow, BeyondTrust
- Managed identity and access operations across Active Directory and Azure AD, including provisioning, password resets, and access validation while enforcing organizational security policies and access controls.
- Investigated endpoint, application, and access-related incidents, logging and tracking in ServiceNow and escalating security-related issues to support secure IT operations and audit traceability.

Procentive Test Application by Ensora Health Technologies: Burp Suite

- Technologies: Burp Suite
- Conducted web application penetration testing using Burp Suite to identify OWASP Top 10 vulnerabilities, including injection flaws, authentication weaknesses, and session misconfigurations.
- Intercepted and analyzed HTTP requests/responses, validating vulnerabilities and documenting findings with risk impact and remediation recommendations for structured security assessments.

Education

Visvesvaraya Technological University
BE in Computer Science

April 2019 – May 2023

- CGPA: 8.9
